

Premier Tech Water and Environment is an industry leader in decentralised wastewater treatment, rainwater harvesting, stormwater management and liquid storage across the UK.

Our residential range of Rewatec GRP pump stations are offered in 900mm, 1,200mm and 1,500mm diameter tanks, with a range of heights, volumes, options and accessories available.

A commercial range is also offered from 1,800mm to 4,000mm diameters.

COMPACT PUMP STATIONS

Quick and simple to install, the Rewatec range of compact GRP pump stations are ideal for raising sewage, effluent, wastewater and surface water in locations where a gravity discharge is unachievable. They are suitable for properties of up to 9 people and are supplied with a 50mm single pump as standard.

Typical applications

- Residential properties
- Small commercial applications
