

Mini Tuff Tank (fresh or waste water applications)

Waste Tank version

So much **better** than a steel tank

Water Applications

If you're always running out of water for your jobs, it's time to use our robust, lightweight, plastic **Mini Tuff Tank**. Not prone to unsightly rust, the **Mini Tuff Tank** is easy to move, install and clean: ideal for sanitation professionals, window/wheelie bin cleaning companies and domestic rainwater harvesting.

It's child's play to connect a petrol-driven pressure washer or an electric / petrol-driven water pump with a hose reel to dispense water accurately and precisely.

Waste Applications

Alternatively, should you need to capture the waste from a small toilet unit, shower block or catering facility, and space is at a premium, the **Mini Tuff Tank** will be the product of choice.

Technical Data*

Mini Tuff Tank (fresh or waste water applications)

Applications

Portable Sanitation Industry:

- Extra water capacity for:
 - topping up site welfare units
 - topping up non-potable water tanks
 - filling toilet sinks
 - carrying out a more intensive clean on site
- Waste capture for construction and events
- **Call us on 0800 334 5742** for water pump and pressure washer options

Window and wheelie bin-cleaning industries

- Mount the Mini Tuff Tank on your truck, connect to a suitable pump and your cleaning equipment

Rainwater harvesting:

- Fits flat against a wall next to your downpipe
- Diverter valve fittings available to connect to square or circular pipes
- Taps or pumps available as optional extras

And much more...

- Campsite toilet waste tipping point
- Pleasure boat toilet waste tipping point
- Catering industry waste oil collection
- Municipal refuse site waste oil collection

Waste Water / Grey Water Holding Tank

Capture waste from toilet units, catering trailers and shower blocks or use as an Elsan® tipping point.

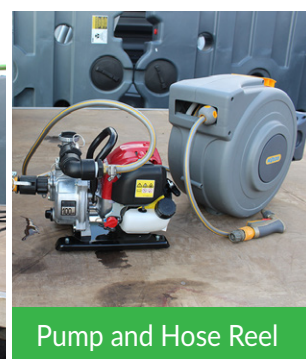

Mini Tuff Tank Linking Kit

Water Tank

Carry extra water and connect to a manual drain, pressure washer or water pump for a multitude of applications. Also suitable as a rainwater harvesting tank in domestic / garden situations.

Pressure Washer

Pump and Hose Reel

Mini Tuff Tank Options:

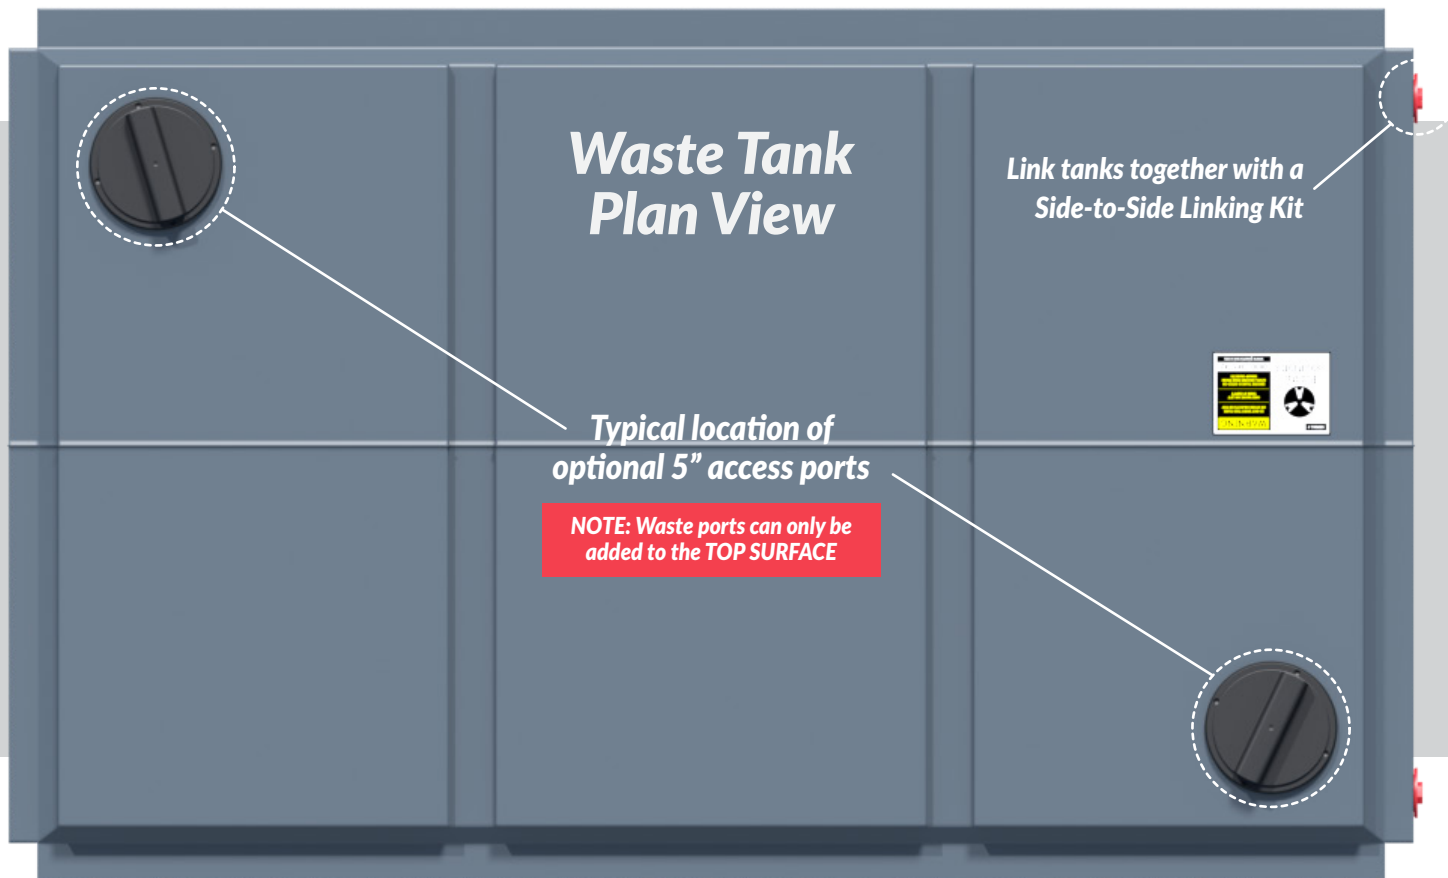

- Rainwater Diverter Kit and garden / garage pump
- 1" Honda petrol driven water pump and hose reel
- Pressure washer with spray gun and lance

Mini Tuff Tank (fresh or waste water applications)

Waste Applications

For waste tank applications customers can choose their own location for (typically) 2 x 5" waste ports: one for waste inlet, one for waste extraction. **Please indicate your preferred positioning below.** You may also wish to add optional equipment, such as, a Level Monitoring Alarm, Bulkhead Fittings and/or a Tank Breather Kit etc.

Pressure Washer

Rainwater Diverter Kit

Water Applications

It's child's play to connect a petrol-driven pressure washer or an electric / petrol-driven water pump with a hose reel to dispense water accurately and precisely.

You can even harvest rainwater from your back garden!
