

Installation

QUANTUM has been designed to make installation as simple, quick and low cost as possible.

Its compact design and robust construction mean that it is suitable for installation by nearly all contractors. It does not have to be installed by an approved contractor.

QUANTUM is an all-in-one sewage treatment plant and no additional equipment is required.

QUANTUM is designed for dry and semi wet sites only. All QUANTUM tanks can be extended to cater for foul drain depths of up to 1m.

Please contact our office if you would like the details of your nearest approved installer.
