CHOOSE CARBERY FOR

- Quality
- Reliability
- Safety

www.carberyplastics.com

WITH CARBERY, YOU'RE IN GOOD COMPANY.

For nearly 40 years, Carbery Plastics Limited has pioneered the development of premium quality, plastic fuel and liquid storage tanks.

Carbery Fuel Points are ideal for the storage and dispensing of Diesel fuel. Regulatory compliant and benefiting from bunded (tank within a tank) construction, every Fuel Point combines forecourt style refuelling convenience with the assurance of supply, only on-site storage can provide.

Every Carbery Fuel Point is manufactured in Ireland, at the company's purpose built production facilities in Clonakilty, Co. Cork. Every Fuel Point benefits from being produced at a globally recognised manufacturing centre of excellence

Standard Fuel Point

Premium Fuel Point

Standard Equipment on all Models

- Suction Pipe
- Strainer
- Non-Return Valve
- 56 LPM Piusi 230v AC Fuel Pump
- 5m Fuel Delivery Hose
- 10 Micron Water/Particulate Filter
- Auto Trigger Nozzle
- Lockable Inspection Point
- Lockable 2" Fill Point
- Lockable Equipment Access
- Overfill Prevention Device

Additional on Premium Models

- Apollo Contents Gauge & Spill Detector
- Piusi Flow Meter with resettable batch Totaliser
- Overhead Light
- Retractable Hose Pack (Fuel King Only)
- Offset Fill Point (6000FPP Only)

1350 FUEL POINT

2500 FUEL POINT

6000 FUEL POINT

Model	Diameter	Height	Nominal Capacity	Actual Capacity
1350 FP	1,372mm	1,570mm	1,309 Litres	1,374 Litres
2500 FP	1,870mm	1,900mm	2,554 Litres	2,688 Litres
6000 FP	2,400mm	2,400mm	6,025 Litres	6,342 Litres

❖ Fuel Points are available in both a standard and premium specification

Standard Equipment

1. 56 LPM Piusi 230v AC fuel pump;
2. 'Hydrosorb' 10 micron integrated water / particulate filter;
3. 5m fuel resistant delivery hose;
4. Trigger nozzle with automatic shut off;
5. Lockable fuel tank fill and inspection points;
6. LRC overfill prevention probe;
7. Lockable equipment access;
8. 2" BSP lockable fuel fill point;
9. 121mm lockable fuel inspection point.

Premium Equipment (Additional to Standard)

1. Piusi fuel flow meter with resettable batch totalizer;
2. Apollo fuel tank contents gauge;
3. Overhead light

1350 FUEL KING

2500 FUEL KING

Model	Length	Height	Width	Nominal Capacity	Actual Capacity
1350 FK	2,018mm	1,729mm	1,295mm	1,326 Litres	1,396 Litres
2500 FK	2,330mm	1,900mm	1,450mm	2,348 Litres	2,471 Litres

MOBILE REFUELING TANKS BY CARBERY

Convenient, flexible, fuel tanks with 'go anywhere' capability

Carbery Mobi Points are a new generation of Diesel storage tank. Designed to strap securely to the back of a pick up truck, Carbery Mobi Points can be refuelled at any filling station and used to transport and used to transport fuel directly to plant or equipment on-site.

Practical, flexible and affordable – Carbery Mobi Points are bristling with the latest fuel dispensing technology and engineered to ensure a long and useful service life. Supplied as standard with waterproof lid, locking spigot, integrally moulded strap over points and 2 way fork lift access, they are lightweight, easily handled and used.

A wide range of options are available, allowing Mobi Points to be personalised to operate specific requirements. Mobi Points are suitable for static use too, subject to local fuel storage and environmental requirements.

Features:

- Choice of 12v or 24v 50LPM electric pump
- 4m battery fly leads
- ¾" Fuel Dispensing Hose
- Fuel dispensing nozzle with auto shut off
- Lockable lid
- Optional fuel contents gauge
- Optional fuel flow meter
- 2" vent
- 2" BSP fill point

Benefits:

- Portability – Carbery Mobi Points can go where bowzers and tankers can't
- Lightweight and easily handled, with 2-way forklift access
- Strong, tough and durable
- Manufactured from corrosion resistant materials
- Reduced risk of spillage when compared with jerry cans, barrels and drums
- Road legal & ideal for site use
- Maximises productivity by minimising plant and equipment downtime

Dimensions, Weights & Capacities

	220MP	420MP
Capacity:	220 Litres	420 Litres
Length:	1150mm	1150mm
Width:	800mm	800mm
Height:	495mm	785mm
Unladen Weight:	35kg	45kg
Laden Weight:	233kg	423kg

Storage & Dispensing Tank for AdBlue

1350 Ltr

2500 Ltr

6000 Ltr

Model	Diameter	Height	Nominal Capacity	Actual Capacity
1350 Ltr	1,372mm	1,570mm	1,309 Litres	1,374 Litres
2500 Ltr	1,870mm	1,900mm	2,554 Litres	2,688 Litres
6000 Ltr	2,400mm	2,400mm	6,025 Litres	6,342 Litres

Carbery AdBlue Bunded tanks are designed for the safe, secure and appropriate storage of AdBlue at Agricultural, Commercial, Industrial & Institutional premises. Every Carbery Blue Point uniquely combines the benefits of forecourt style AdBlue refuelling, with the assurance of supply, which only on-site storage can provide.

All Carbery Fuel Points are fully compliant, with all prevailing and expected Irish, UK and EU fuel tank requirements.

Each model is supplied complete with factory fitted AdBlue pump, delivery hose & automatic nozzle to ensure clean delivery

Standard Equipment Includes:

- Clearance Inspection / Fill opening
- Lockable Cabinet
- Suction Pipe Strainer & Foot valve PUMP
- 230VAC – 35LPM Delivery Hose – 6M
- Automatic Nozzle - Piusi SS

Optional Extras:

- Standard Ocio Contents Gauge
- BMS - 4-20ma output for connection to BMS systems of a building/business.
- 6000 TMS Fuel Management System (only available on 6000 Ltr model)

Mobile Storage & Dispensing Tank for AdBlue

Convenient, flexible, AdBlue tanks with 'go anywhere' capability

Designed to be strapped securely to the back of almost any pickup truck, Carbery Mobi Blue can be used to transport AdBlue to plant and equipment on-site which minimises downtime, maximises productivity and eliminates the requirement for drums, cans and barrels on-site.

Equipment Standard	235Ltr	430 Ltr
Manual Delivery Nozzle	Y	Y

Specifications		
Capacity	235L	430L
Length	1150mm	1150mm
Width	800mm	800mm
Height	495mm	785mm

Benefits:

- Portability - Carbery Mobi Point fuel tanks can go where bowlers, barrels and tankers cannot
- Strong tough and durable - every Carbery Mobi Point fuel tank is manufactured from a specialist polymer with excellent impact resistance characteristics
- Manufactured from corrosion resistant materials, Mobi Point fuel tanks will never, rust or corrode and are fully recyclable
- Reduced risk of spillage when compared with jerry cans, cans and drums;

Lightweight and easily handled, Carbery Mobi Points cleverly fit within a standard pallet space making them easy to transport too.

Apollo Ultrasonic

Apollo Ultrasonic is the original ultrasonic oil tank contents gauge and comprises a tank mounted transmitter unit and a plug in receiver unit.

Apollo Ultrasonic

How it Works?

- Transmitter monitors the level of fuel inside the tank.
- Relays this data via a secure, wireless connection to the receiver unit, which cleverly and conveniently plugs into a standard electrical socket.
- Receiver unit displays the level of fuel inside the tank, via an easy to read LCD display, which usefully includes a low level warning alert.

Apollo Smart

Apollo Smart allows heating oil users to ascertain the volume of fuel remaining in their tank, monitor heating costs, consumption and emissions too. Also incorporating as standard a Fuel Theft Alarm.

How it works?

- The Apollo Smart consists of a transmitter & receiver unit. The transmitter monitors the level of heating oil remaining inside a home heating oil tank, together with fuel usage and consumption.
- The transmitter relays data wirelessly to a mains powered receiver unit, where it is displayed on LCD monitor.
- Apollo Smart's calculates the level of fuel inside a tank and also analyses the volume of fuel remaining and displays to the user an Estimated Days To Empty.

Apollo Smart

At Carbery, we have a diverse product range

As a leading European manufacture of rotationally moulded storage containers, Carbery Plastics today produces much more than just oil tanks.

Across the land, Carbery Fuel Points have become a byword for quality, regulatory compliant Diesel storage and dispensing solutions.

Waste Oil Tanks and Carbery Recycling Banks can be found at many civic amenity sites and recycling centres across Europe. Carbery can also offer a comprehensive range of agricultural products too. For more information, visit us online at www.carberyplastics.com
